Micropayments done right.

### Sr. Business Development Manager / program manager

Microsoft

Jan 2006 - Sep 2008 · 2 years 9 months

Redmond, WA

Product Manager in charge of Smart Cards stack in Windows. We were on a mission to make it easy to use smart cards on Windows (my tag line back then: "make smart cards so easy to use even a cave man can do it" - I know, not original, but cute)

I also did a biz dev role in Business development and strategy for Windows (OS division). Some good times doing deals for Windows Vista launch.

### Founder, CTO

Ancora Technologies

Jan 2002 - Dec 2005 · 4 years

Irvine, CA

Founder and CTO of Ancora Technologies that developed a breakthrough security technology for consumer devices (desktops, mobile phones, etc). Today, Ancora's seminal patented tech (US Patent 6,411,941) is in EVERY smart phone.

strategy, enterprise sales, finance and patent litigation - including a visit to the Federal Circuit Court of Appeals (we won...attorney John LeRoy from Brooks Kushman killed it... and made a small impact on patent law).

and one more thing... turns out I can code in PowerPoint just as well as in C++

UPDATE: two visits to the Federal Circuit... this time it was attorney Marc Lorelli from Brooks Kushman who killed it...

this time, we made a much bigger impact on patent law: our case defined guidelines on which computer security software patents are now patent eligible (101)

approach (even when facing the toughest issues). Excellent problem solving skills. Highly committed. Honest. I'm looking forward to future opportunities to team up with Miki again."

### Nick Hislop

"Miki was my "point person" at Microsoft and was instrumental in developing the relationship between Microsoft and Gemalto (Gemplus, at the time). He was diligent and highly responsive and enabled a valuable technical / business relationship to become established in short order. It was a pleasure working with him."
